

List of successful applicants for the 2008/2009 SRF round

Andrew Foote (United Kingdom)	Worldwide phylogeny of killer whales (<i>Orcinus orca</i>) based upon whole mitochondrial DNA genome sequences
Molly Pankey (United States)	Molecular evolution of bioluminescent squid
Joanna Browne (Australia)	Life-cycles and spatial variation of digenean parasites of the upside-down jellyfish <i>Cassiopea</i>
Nestor Ardila (Colombia)	Systematics of the precious corals (Octocorallia: Coralliidae) based on morphology and DNA
Steven Worthington (United States)	Orangutan Taxonomy: Ecto- versus Endocranial Signals and Covariation
Daniel Thomas (United Kingdom)	Phylogeny and historical biogeography of Sulawesi Begonia: Dispersal across Wallace's Line?
Rodrigo Gonçalves (Brazil)	Systematics and biogeography of Corynurine bees (Hymenoptera, Apidae s.l., Halictinae)
Vinita Gowda (United States)	Breeding and Pollination Patterns of Island-Gingers (Zingiberaceae), the Andaman and Nicobar Islands
Olaoluwa Akinwale (Nigeria)	DNA barcoding of bulinus snail intermediate hosts of <i>Schistosoma haematobium</i> in Nigeria
Samuel Brockington (United States)	Floral development, Pigmentation and Pollination Biology in early diverging lineages of Caryophyllales
Jessica Litman (United States)	Phylogeny, historical biogeography, and host-plant associations of the tribe Fideliini (Hymenoptera: Apoidea)
Hannah Caine (United Kingdom)	A monograph on the Upper Liassic Ichthyosauria from Strawberry Bank, Ilminster, England
Daniel Henk (United Kingdom)	Basidiobolus species-host specialists, generalist gut symbionts, or ubiquitous fungal saprophytes?
Richard Brown (United Kingdom)	Speciation times in the lizard genus <i>Phrynocephalus</i> from the Tibetan Plateau
Mark Statham (United States)	Phylogeography of South Asian Red Fox (<i>Vulpes vulpes</i>)
Kevin Conway (United States)	Torrent Minnow Biogeography
Diana Jolles (United States)	Phylogeographic diversification within the <i>Pyrola picta</i> species complex (Ericaceae)

Erik Koenen (Netherlands)	Taxonomy and conservation of the African species in the genus Guarea (Meliaceae)
James Harrison (United Kingdom)	Investigating the endosymbiotic origins of the orange algal plastid
Eve Lucas (United Kingdom)	An annotated checklist of Calyptranthes (Myrtaceae); field-work in the Dominican Republic
Axel Barlow (United Kingdom)	Systematics of the African puff adder, <i>Bitis arietans</i> (Serpentes: Viperidae: Viperinae)
Steven Edgington (United Kingdom)	Detailed observations of entomopathogenic nematodes of Tierra del Fuego in Chile
Jean-Francois Agnese (France)	Developing geometric morphometrics and RGB analyses in Killifish systematics through images acquisition
Bonnie Blaimer (United States)	Untangling Malagasy ant diversity: Molecular taxonomy of the Decacrema-group (Crematogaster: Formicidae)
Sébastien Lavoué (United Kingdom)	Presence and cryptic diversity of the paedomorphic freshwater fish Sundasalanx in Thailand
